Rights of Way Report November 2026

Eve Wynn has responded to the PC following our correspondence in October, regarding repairs to WN19/105. She confirmed that the Works Order has been signed and given to the Contractor, who is now scheduling the works. That is heartening news, because it means the budget is allocated for the works. Unforuntaely we are now awaiting notification of when the works will take place.

The footplate on the stile in Lodge Hill Yarlington is damaged making it hazardous to use. This has been reported to Somerset Council via the Explore Somerset website.

As the rain has started again, some of the paths are becoming slippery and waterlogged in places. This may also make some of the stiles less stable. Walkers are advised to take care when walking along the Rights of Way.

Please continue to report any issues encountered via the Explore Somerset website - https://roam.somerset.gov.uk/roam/map#
